A decorative border made of a black and white film strip with sprocket holes, curving around the top and bottom of the page. The film strip has several rectangular frames, some of which are shaded light gray.

VUE ENTERTAINMENT

A small pile of white popcorn is visible on the left side of the page, partially obscured by the film strip border.

There's no other experience quite like watching entertainment on the big screen. The sights and sounds, the hushed conversation, the great anticipation. Then, it's just about you and the screen. Bathed in bright lights, sitting in utter darkness, feeling as though you could reach out and be part of the action. And it's not over when the lights come up. Great experiences linger with you; they become part of who you are and it's this escape from daily life that keeps us coming back for more... and more. At Vue, we believe there is nothing like the full blown big screen experience delivered at its best, which demands the perfect tuning of the seats, the screen, and brilliant sound.
