No.3 "Cavity Fixing" wall plug

Hints

If plastic wall plugs (rawl plugs) are supplied with your product, e.g.:

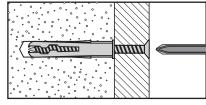

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixings is the responsibility of the installer.

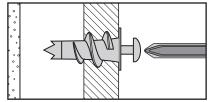

#### Types of walls

No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

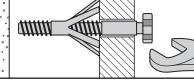

No.2 " Plasterboard" wall plug

For use when attaching light loads onto plasterboard partitions.

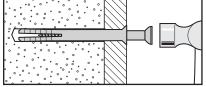

wall plug

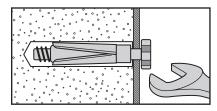

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

Safety: always check the fitting and location to ensure your safety in and around the home.

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.6 " Shield Anchor" wall plug heavy loads

For use with heavier loads such as TV and HiFi speakers and satellite dishes etc.

Fitting: from time to time check the fitting to ensure the wall plugs or screws do not become loose.

For use with plasterboard partitions or hollow wooden doors.

No.4 " Cavity Fixing - Heavy Duty"

No.5 "Hammer Fixing" wall plug

Important: when drilling into walls always check

always use a larger screw and wall plug if you are

that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for

supporting your unit. Consult a qualified tradesperson if you

2: Ensure you use the recommended drill bit to match the wall plug and

3: Ensure you drill the hole horizontally; do not force the drill or enlarge

You can use one of the following types of wall plug if your walls are made

4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic

5: Ensure wall plugs are well fitted and are a tight fit in the

tiles to avoid the tiles splitting or cracking.

of brick, breeze block, concrete, stone or wood.
