

Soft Serve, Slushies & Frozen Drink Maker

Tips for the **best creations** every time

Use liquids with at least 6% sugar

Sugar is required for proper freezing. Low- or no-sugar drinks (e.g. sparkling water, sugar-free soda) may freeze solid and damage the machine. Adjust with syrup, honey, or juice if needed.

Fill within the correct limits

Overfilling or under-filling may affect performance.

Mode	Min.	Max.
Slushie	0.6 L	0.8 L
Ice Cream	0.6 L	0.6 L

Liquids only, NO solids

Do not add ice, frozen fruit, granulated sugar, granulated coffee or solid ingredients, as these may damage the machine. For fruit flavour use smooth syrups or fruit juices instead.

Keep alcohol within 6% to 16%

For Margaritas and Frozen Cocktail functions, alcohol must stay within this range to freeze properly. If the mixture is too strong, **dilute with juice, soda, or other mixers.**

Use mode specific ingredients

Frappé and Milkshake functions require sugar and/or cream. **Missing these may affect the texture** or cause the mixing paddle to jam.

Ice Cream

MODE: ICE CREAM

LEVEL: 4

MAX FILL: 0.6L

Ingredients

- 150ml whole milk
- 350ml single cream
- 100g sugar cane syrup
- 2.5ml Vanilla Extract

Method

1. Whisk all ingredients until the mixture is smooth and creamy.
2. Pour mixture into the base (Max 0.6L).
3. Select **ICE-CREAM** and level.
4. Once ready, serve immediately for the best texture.

Serving Suggestion

Serve in a bowl or cone. Add fresh berries or a drizzle of chocolate sauce for extra flavour.

Tip: Pro Breeze recommends levels 3 to 5 for best results.
