

Installation & Delivery Checklist – Large Cooking Appliances

Before you order

- ☐ Measure the area where the item will be fitted.
- ☐ Check the dimensions of your chosen product.
- ☐ Assess the access route for your delivery (make sure it will fit through doorways, up stairways etc.).

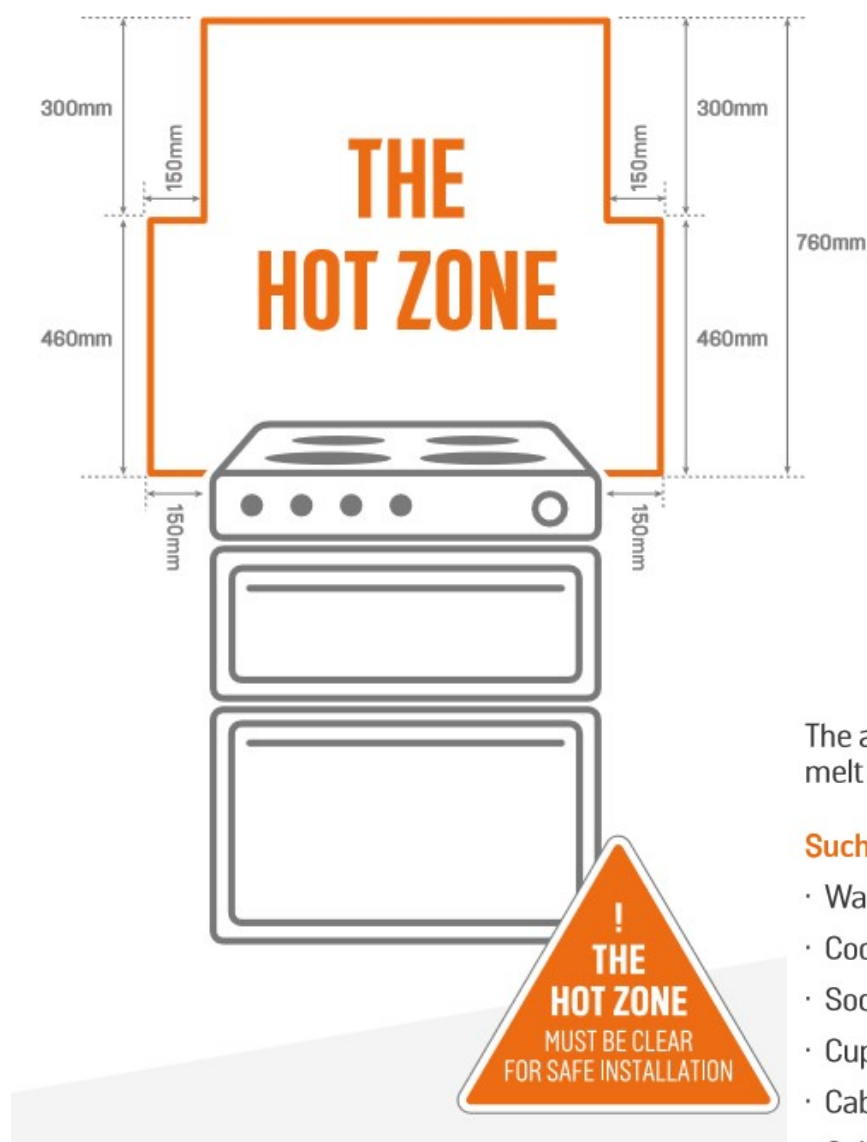

Preparing for your delivery

- ☐ Answer all the questions from our delivery and installation team.
- ☐ Ensure there is an electric and/or gas supply within 1m of where your appliance will be placed.
- ☐ Check that pipework and electrics are in a safe condition.
- ☐ For cookers and hobs only – Make sure that the 'hot zone' is clear of flammable items. See 2nd page for further details.

On the day of delivery

- ☐ Make sure there will be a responsible person over the age of 18 to sign for the delivery/installation.
- ☐ Clear access routes to gas appliances, boilers & meters so that visual checks can be conducted.
- ☐ Ensure there is clear access to gas and/or electric meters and that there is credit on them (if relevant), so that safety checks can be conducted.

Installation & Delivery Checklist – Large Cooking Appliances

The area that must be free from anything that can melt or catch fire

Such as:

- Wallpaper
- Cooker switches
- Sockets
- Cupboards
- Cables
- Cable covers/trunking
- Window frames
- Paper
- Plastic
- Wood

This list is not exhaustive and is provided to give some examples of common reasons for installations to fail.

Even if you have had a cooker installed in the past, you may still need to make some changes to ensure you comply with new legislation, so that the installation of your new cooker can be completed safely.
