## ! IMPORTANT PISTON INFORMATION

The pistons used in the construction of this product are extremely strong and cannot be operated by hand when not fitted to the ottoman hinges. All pistons are tested in the factory for correct pressure and operation before use.

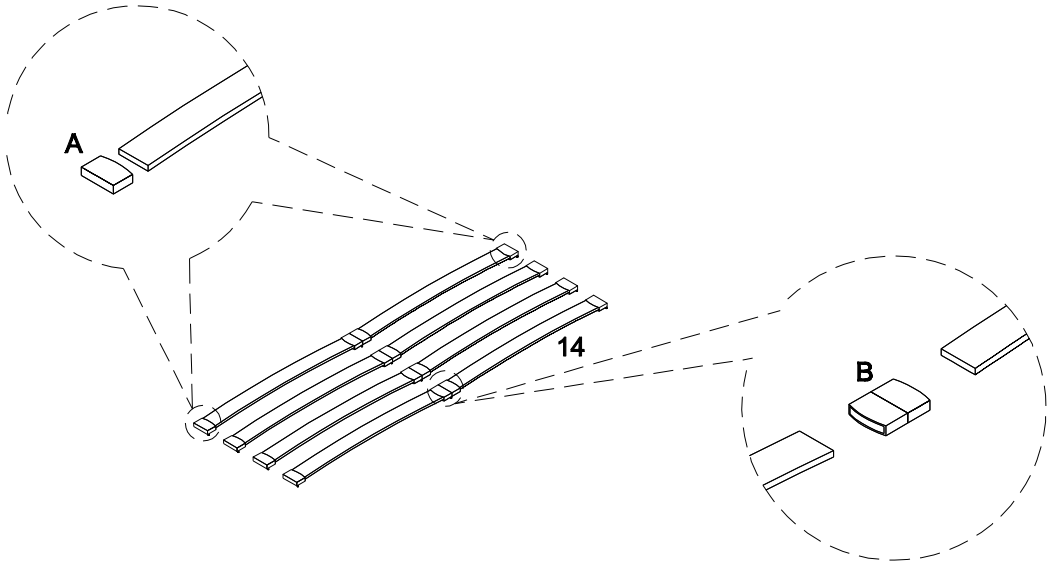

Initially it might appear that the pistons are very stiff when opening and closing the ottoman frame, THIS IS NORMAL.

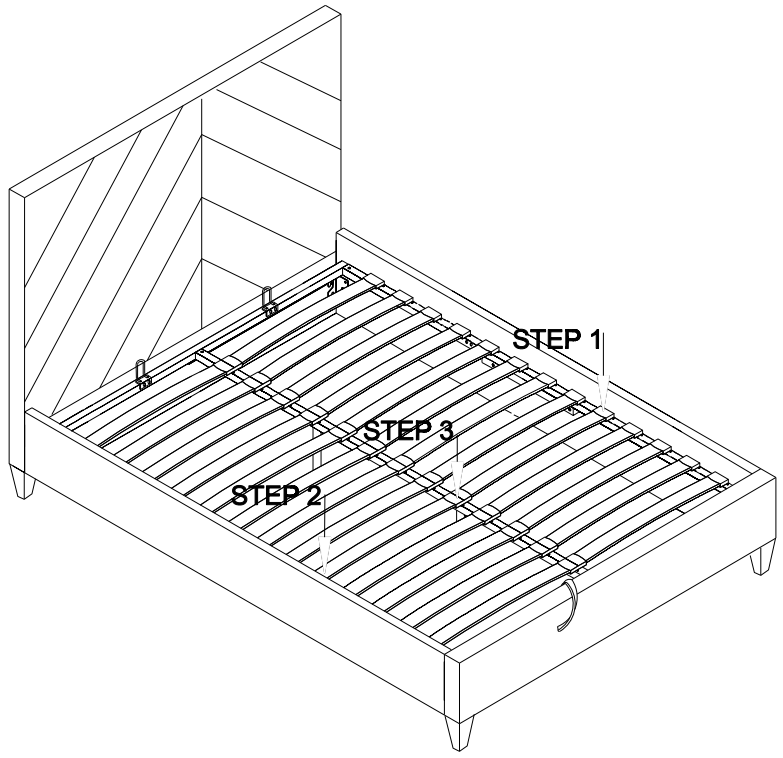

After operating the ottoman a few times, the movement of the pistons and the opening and closing of the ottoman will become easier.

# THEA OTTOMAN BED ASSEMBLY INSTRUCTIONS

## Complete Assembly

Your bed frame is now completely assembled but the ottoman will not operate correctly unless a mattress is placed on the slat frame and will not stay shut unless the mattress remains in position. To position the mattress on the slat frame, simply place the mattress on top of the slat frame whilst it is in the up (open) position.

Lift with the strap and close with the strap. The strap should always be accessible. Take care not to lean over the bed when lifting, if the mattress is thin and light, the frame may rise quickly. The speed of closing will also depend on the weight of the mattress so always keep fingers well clear of the metal frame.

PLEASE NOTE - It takes a lot of force to make the initial movement of the ottoman - THIS IS A DESIGN FEATURE OF THE PRODUCT SO THAT IT DOES NOT FALL SHUT - and the nearer to being closed the ottoman is , the easier it is to move. When the ottoman is almost shut, it will close completely under its own weight.

When lowering the slat unit for the first time, take care to make sure it does not rub unevenly on the inside face of the Side rail. If it does, the bed has been assembled slightly out of square. This can be rectified by moving the Footboard of the bed slightly to the left or right whilst leaving the headboard of the bed frame stationary.

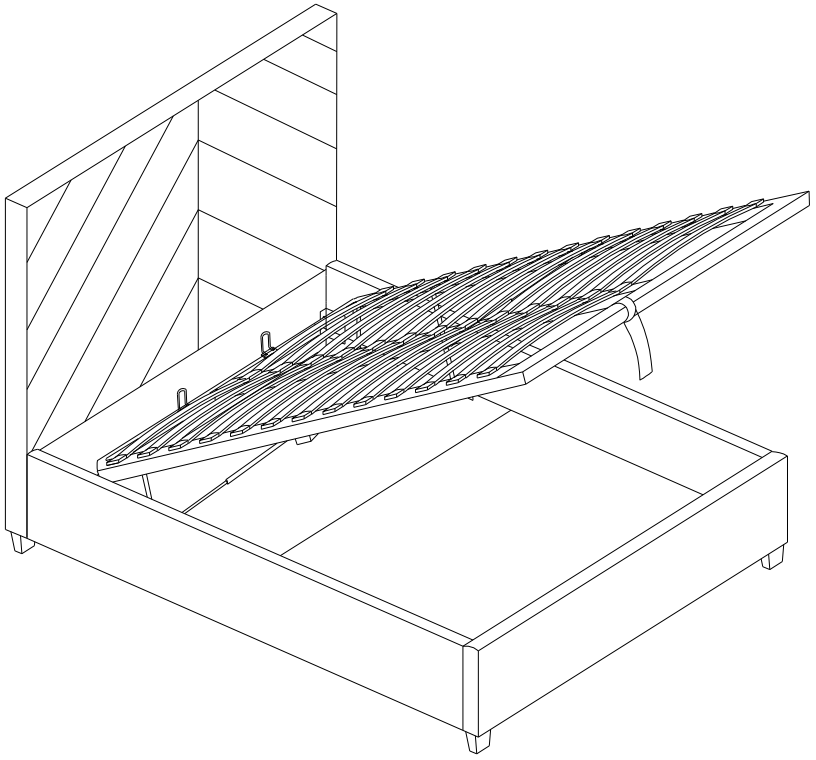

# THEA OTTOMAN BED ASSEMBLY INSTRUCTIONS

## Complete Assembly

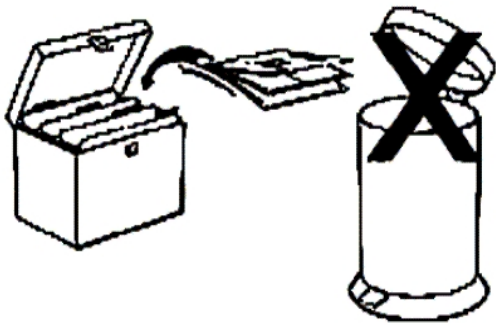

Your bed frame is now completely assembled.

Periodically check to ensure that the components are in their properposition,free from damage.Also,make sure the connectors aretightand secure.

WHEN STORING ITEMS IN THEOTTOMAN ENSURE THAT THE CENTER RAILSUPPORTLEGSAREFREE AND TOTALLY CLEAR FROM OBSTRUCTION WHEN CLOSING BEDSTEAD THEOTHERWISE DAMAGE CAN OCCUR TO THELEGS AND FRAME.

Keep instructions for future reference.
