1 Hour
Set Up

IMPORTANT - READ CAREFULLY - RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE.

INFORMATION

- This product is designed to hold 50 Kg in total, spread evenly over the whole unit.
- Do not exceed this weight.
- We recommend that this unit is assembled in the room intended for use.
- When you are ready to start, make sure that you have the right tools, plenty of space and a clean, dry area for assembly.
- Unwrap all packaging materials and place the components on top of the carton box or on a clean floor to prevent them from scratching.
- Check the pack and make sure you have all the parts listed.
- Ensure that this product is fully assembled as illustrated before use.
- Check all screws or bolts are tightened and inspect regularly
- Tools not included unless specified in the parts list.

WARNINGS

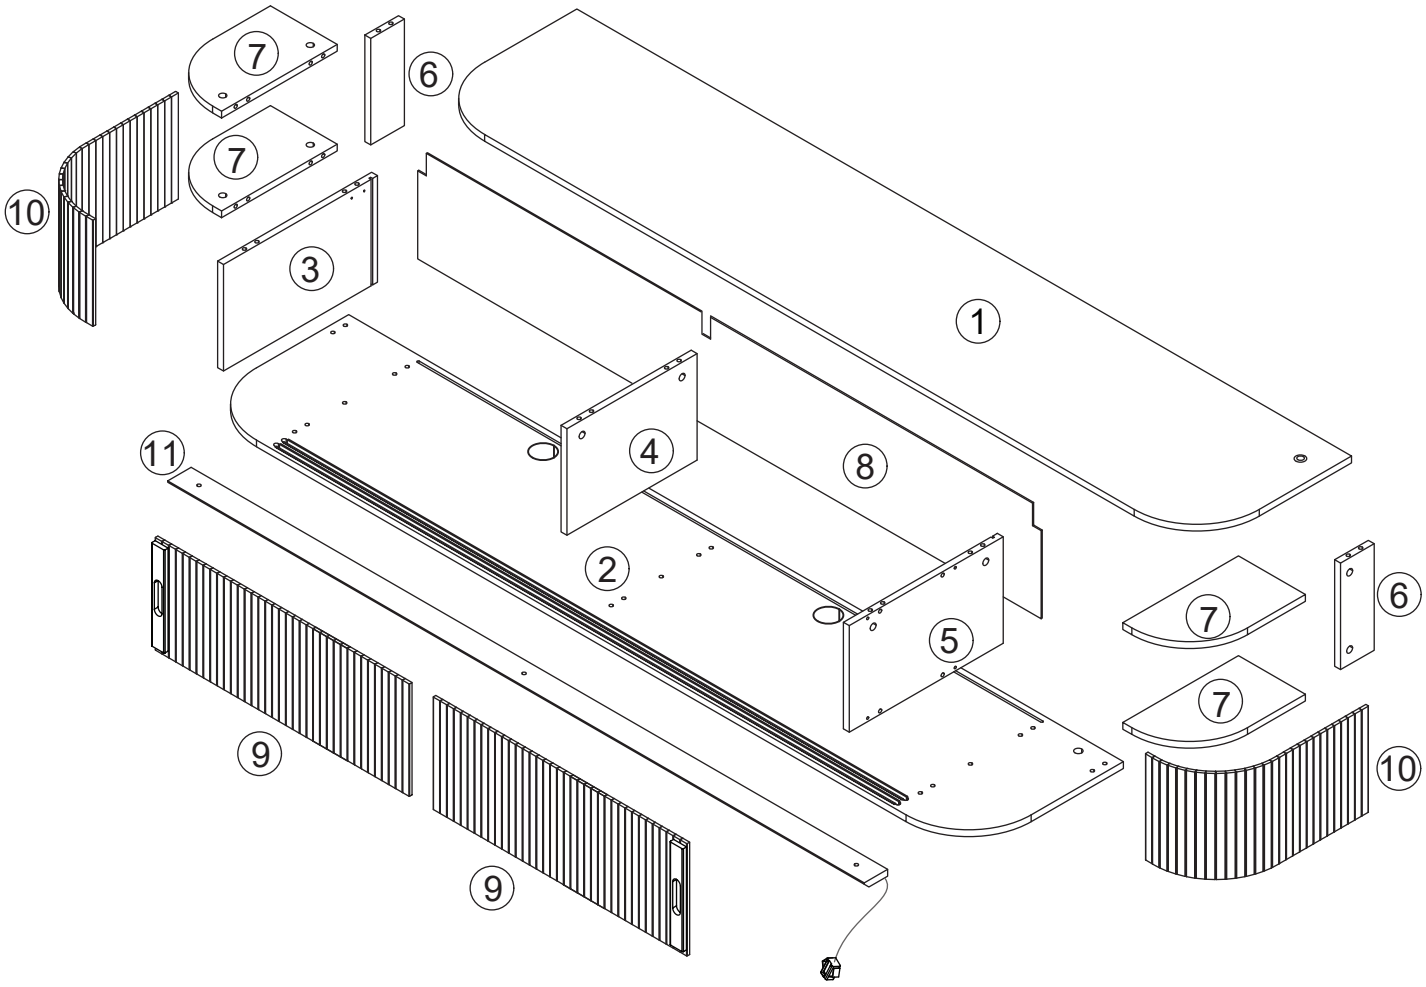

- DO NOT use power tools to construct this product.
- DO NOT tighten screws until parts are assembled or as advised in this guide.
- DO NOT over tighten screws or bolts.
- DO NOT use this product if parts are missing, damaged or worn.
- This is a TV Unit designed to hang from the wall, only use the supports provided.
- **INSTALLATION WARNINGS:**
  1. In order to prevent the product falling down this product must be installed with the wall hanging supports provided - do not use any other means to support the product.
  2. Carefully assess the suitability of the wall to ensure that the fastening device will withstand the load and forces generated. Walls can be quite different in construction so fixings are not supplied - choose the most suitable fixing for your wall type - if in doubt consult an expert.
  3. When drilling the wall always be sure the area to be drilled is free from hidden electrical wiring, water or gas pipes.
  4. The assembly of this product must be done carefully following the detailed stages in the Assembly Instruction.
  5. Installation of this product needs to be carried out in accordance with the following instructions, particularly study Steps 12 &13 carefully...

CARE INFORMATION

- To clean, wipe with a damp clean cloth.
- Never use scourers, abrasives or chemical cleaners.
- Do not use solvent based cleaners or detergents as they can bleach or damage the product.

Parts and Fittings Checklist

Please check the pack contents before assembling the product. If any components are missing, please contact your retailer. The fittings pack contains small items that should be kept away from children and pets.

STEP 12

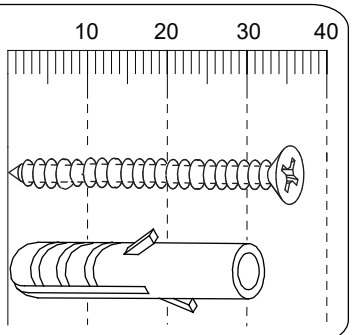

Warning: Always ensure the area to be drilled is free from hidden electrical wires, water or gas pipes.

I Decide on the height you want the cabinet to be then holding one bracket level, mark dead-centre of the three holes. Following the diagram, position and mark holes in the second bracket.

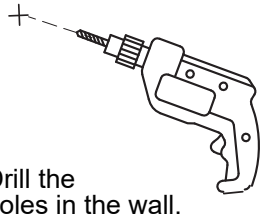

RECOMMENDATION FOR A NORMAL BLOCK WALL

Item	Quantity
Screw (Ø4x35mm)	9
Wall Plug (Ø6x30mm)	9

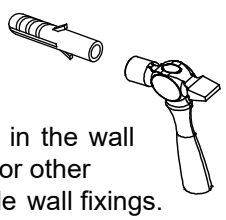

II

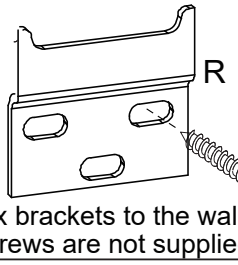

Drill the holes in the wall.

III

Knock in the wall plugs or other suitable wall fixings.

IV

R

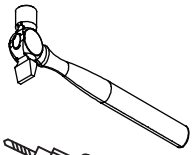

FOR SAFETY, PLEASE USE ALL THREE WALL FIXINGS IN EACH BRACKET

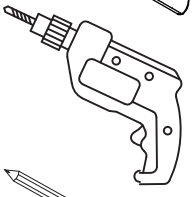

Fix brackets to the wall, screws are not supplied.

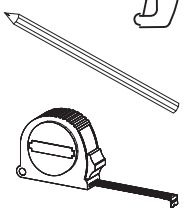

For this step:

Tools required

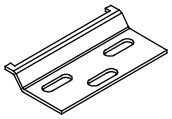

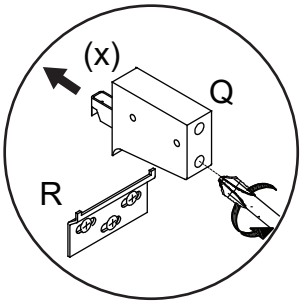

Fittings required

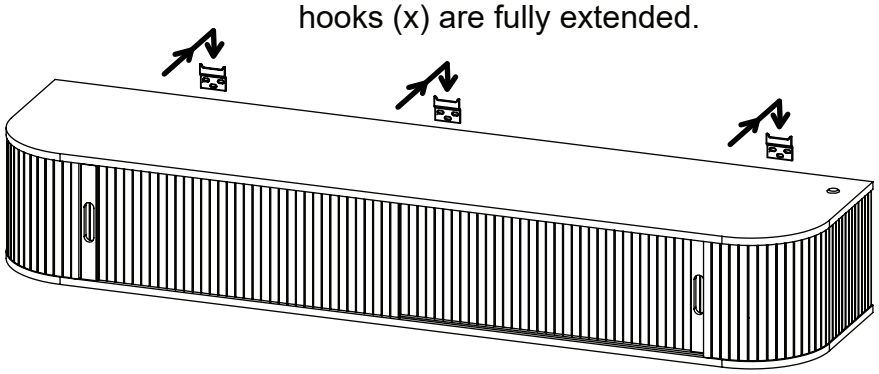

R x3

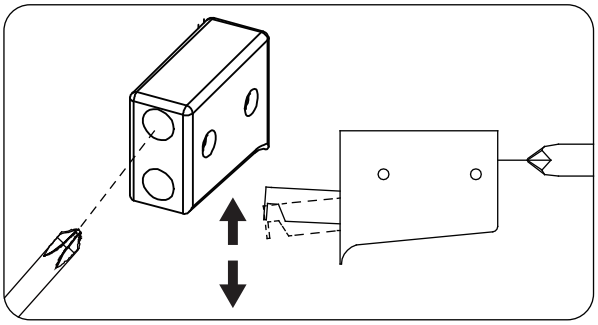

STEP 13

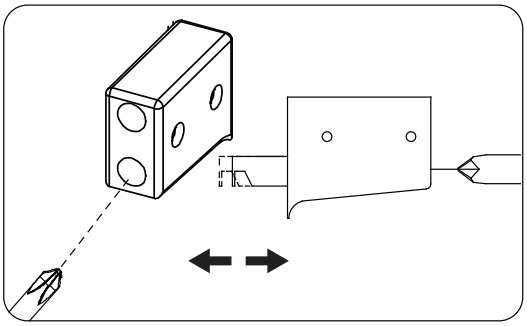

i. On the hanging supports, make certain hooks (x) are fully extended.

ii. With help, hang the cabinet onto the metal wall brackets by carefully aligning the end panels so they just miss the ends of the brackets. Turn upper screw(s) on either side until unit is horizontal.

iii. When unit is hanging on the brackets, tighten lower screws clockwise, so clamping unit to wall - do not over-tighten.

Fittings required

N x2

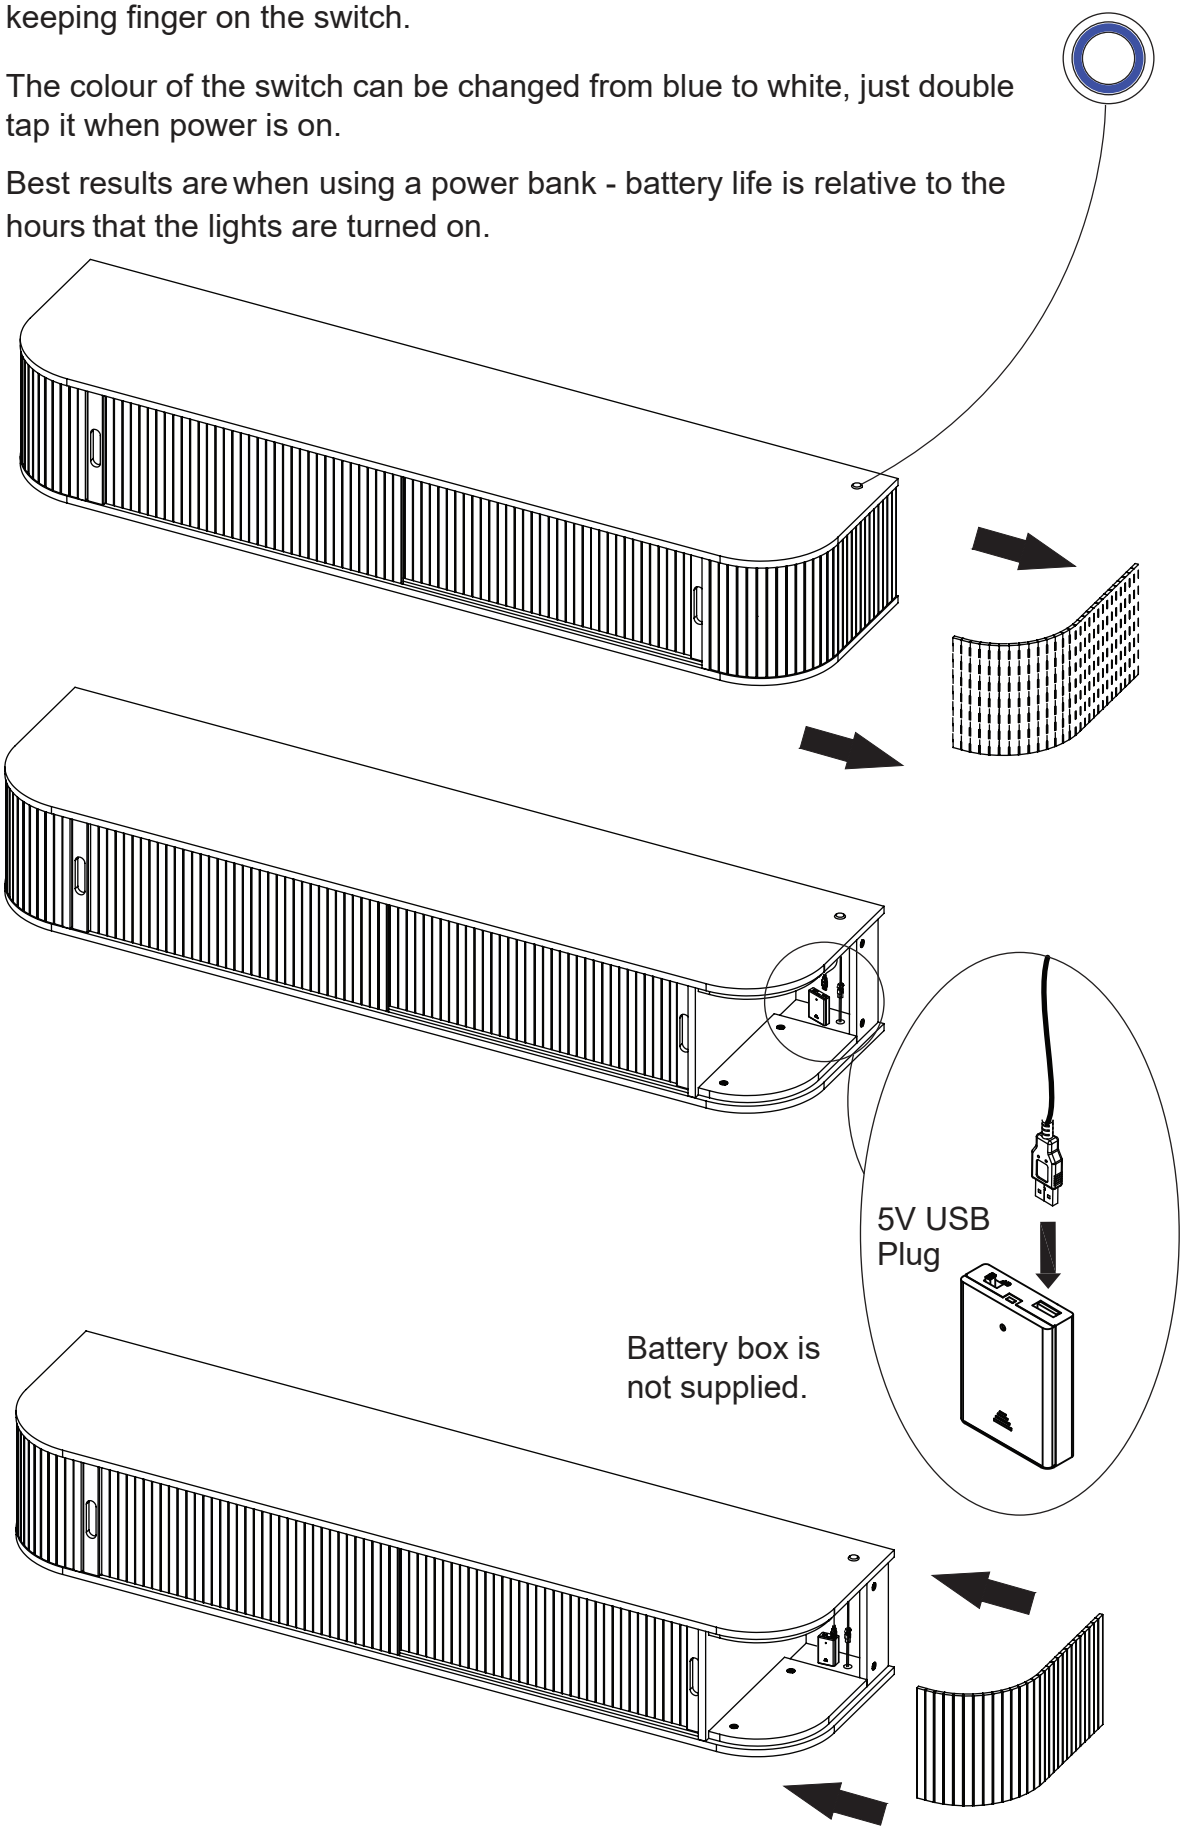

STEP 15

The touch switch is used to turn the LEDs on or off - tap the switch once.

The intensity of the light can be adjusted lighter or darker - long touch keeping finger on the switch.

The colour of the switch can be changed from blue to white, just double tap it when power is on.

Best results are when using a power bank - battery life is relative to the hours that the lights are turned on.

For this step:

Tools required

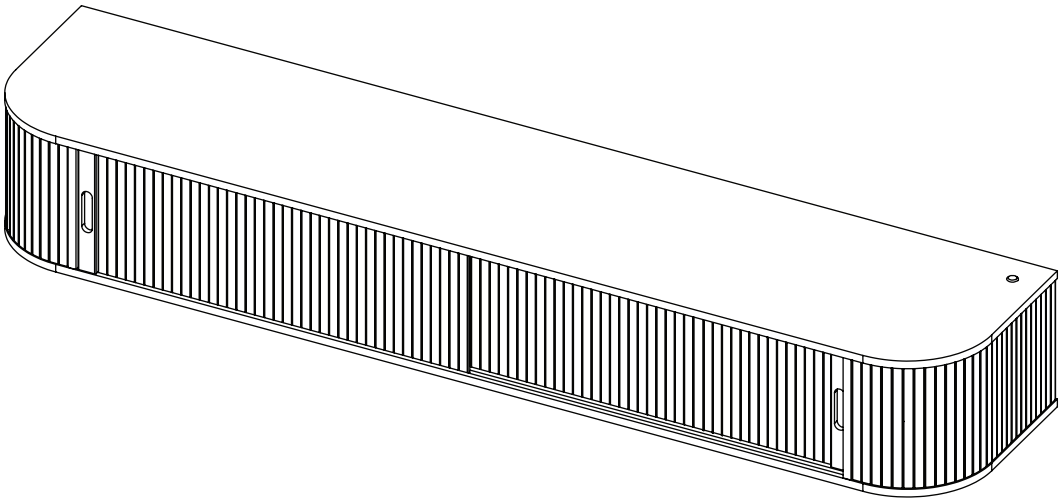

Fittings required

Assembly Completed

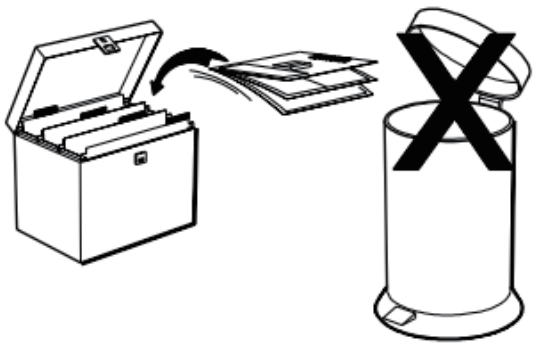

Your Mateo 180cm wall mounted TV unit is now completely assembled.

Periodically check to ensure that the components are in their proper position, free from damage.

Also, make sure the connectors are tight and secure.
